FIXED-FEE RATE TABLE: (continued)

*Includes Administration Costs (Since administration costs are already included in the fixed rate per hour, they need not be calculated nor tracked when a Contractor is using the Fixed-Fee Rate Table.)

**Welfare to Work trainees are to be treated as new hires and, therefore, projects are allowed 25 percent for administration.

Guidelines for Applying the Training Rates:

- The Training Rates are meant to simplify and expedite contracting by allowing virtually all types of training to fall under the available rates.
- In conjunction with using the fixed-fee, the following maximum class/lab and videoconference *trainer to trainee ratios* have been established: Retrainees, 1:20; New Hires, 1:15 and Welfare to Work retrainees, 1:15. **The *trainer to trainee ratio* for Advanced Technology is 1:10 or less.**
- **The Advanced Technology fixed-fee rate of \$20 per hour is applicable to advanced technology skills training which requires a *trainer to trainee ratio* of 1:10 or less and is customized to occupations which involve the production or use of the most sophisticated equipment and software in fields such as electronics, computers, and biotechnology.**
 - **Basic types of computer skills - such as EXCEL, PowerPoint, Page Maker, and Internet navigations - do not qualify for the Advanced Technology fixed-fee rate of \$20 per hour since they are less complex and less expensive to deliver, and are more generic and used across many industries.**
 - **Contractors who have previously received the standard fixed-fee rate of \$13 per hour for a type of training will not qualify for the higher rate of \$20 per hour, unless they provide evidence that training costs merit the higher rate, and they are unable to secure in-kind contributions to pay costs in excess of the standard fixed-fee.**
- An Applicant need not submit a budget if they are requesting: (a) a rate on the ETP's Fixed-Fee Rate Table; or, (b) a reimbursable rate for training and administration of less than the Fixed-Fee.
- SOST Training: An SOST "trainer hour" is based upon the ratio of one trainer to ten trainees.
- The cost per trainee may be adjusted for support costs if appropriate. For multiple-employer Agreements, the eight percent of the training costs allowable for support costs such as recruitment, job placement or assessment should be added. No budget is necessary.
- **For MEC's in which it is documented that the contractor charges clients less than the fixed fee rate to provide training, ETP may reimburse the contractor at the lesser rate, or other rate as negotiated by Panel staff - rather than the ETP fixed-fee rate. (In order to make such a**

determination, ETP staff should routinely inquire about training fees charged by a proposed contractor.)

Guidelines for Applying the Training Rates: (continued)

- **A contractor requesting more than the fixed-fee rate must: (1) provide evidence that the fixed-fee cost is insufficient to cover the cost of training; (2) prior to the Agreement being developed, request pre-approval by the Executive Director, or designee, to submit a budget; and (3) submit a budget substantiating all training costs for Executive Director/Panel approval. In addition, MEC's must also provide evidence that participating employers cannot contribute sufficiently to cover the cost of training.**
